

Swirler Aerosol System for Ventilator Patients

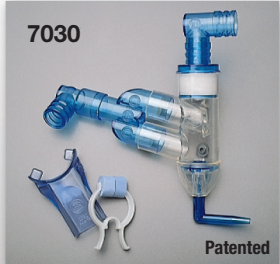

The **Swirler** can easily accommodate a ventilator-assisted patient, without additional components.

MODEL NUMBER	Swirler® Aerosol Products Description	QTY. /PKG.
7020	Swirler Aerosol System for Trach or Mask	20

Swirler Aerosol System with the TruFit® Mouthpiece Kit

An Aerosol Drug Delivery System that is "Precisely Alveolar"! The **Swirler's** patented air-flow design utilizes shear forces to create efficient atomization. This technology increases the delivery of droplets having the desired size (0.5 to 1.5 microns) to assure a more rapid coating of the alveoli resulting in a high resolution image.
